Inderprastha dental college and hospital (IPDC) has always motivated its students to excel academically and in extracurricular by continuously providing them various opportunities to learn and perform. This year IPDC in association with Dasana Foundation organized 3.0 National Dental Conference on 8th and 9th April 2023 at Constitutional Club of India. Dasana is a unique concept about knowing dentistry better with advancements. It leaves no stone unturned to keep the dental professionals updated with latest trends and technologies by conducting National and International conferences throughout India.

The conference focused on full day pre-conference course, lectures by various distinguished speakers followed by hands on techniques from putting a dental implant, crown preparations, laminates, and root canal preparation with newer techniques and so on. Delegates were given opportunities to visit and buy latest equipments and materials from various dental providers in the trade fair organized along with the conference.

A total of 590 registrations were done from various delegates. Various colleges from the all over India participated enthusiastically in the conference. Registrations kits with unique batch id and entry pass to various events were provided to all the delegates.

IPDC was the associating partners in conduction all the scientific events at the conference. It was one of its kind Conference with more than 30 lectures with renowned guest speakers and 12 hand-on courses for firsthand experience. This conference provided opportunity to staff and students to be part of organizing committee and also the platform to perform in them as participant.

81 scientific papers were in presented in 11 sessions on both 8th and 9th April 2023 from both students and professional delegates. For bringing in the creative mind of first and second year BDS, events like Advertise your own formulation and OMT (one minute talk on Oateology) was introduced.

The conference ended with the valedictory function on 9th April 2023.
