Summary of Program

1)	TITLE	Elastomeric Impression Technique and Fabrication of Mouth Guard
2)	Speaker	Dr. Sachin Deep Singh
3)	Date & Time:	
	Module 1	01 /12/2021 & 08:00 am to 08:30 pm
	Module 2	02/12/2021 & 09:00am to 01:30pm
4)	No .of Hours	18 hours
5)	No. of Participants	100

In the advancing world the basic of making impression still remain an important step towards the success of the prosthesis. The overview of frequently used elastomeric impression implication and clinical demonstration broaden students insight for making impression even in difficult clinical scenarios.

Moreover the knowledge and clinical implication of Mouth guards which cover the teeth and some or all of the gingiva to dissipating forces and reduce the stresses and hence deflection of teeth. As well as reducing oral injuries, mouth guards act to protect teeth under excessive masticatory forces like bruxism. This course aims to help student to make elastomeric impression easy and review the use of mouth guards in bruxer, the common barriers to their use and also the different types of mouth guards and their characteristics.

Module 1

08:00-10:00AM: LECTURES

- Introduction to Impression Making
- Implication of Different Impression
- Demonstration of elastomeric impression making
- Introduction to mouth guard
- Different types of Mouth guards
- Fabrication of Mouth guards

10:00-10:30 AM: Tea break

10:30-12:30PM: Demonstration for Elastomeric impression making and Mouth Guard fabrication

12:30-02:30 PM: Patient's preparation and Case sheets

02:30- 03:30 PM: Lunch

03:30 -06:30 PM: Hands-on Elastomeric Impression making

06:30-08:30 PM: Hands-on for fabrication of Mouth guard

Module 2

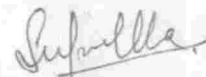

09:00-11:00AM: Patient's Follow-up

11:00 – 11: 30 AM Tea break

11:30- 01:30 PM: Discussion and Analysis

Objectives achieved:

Under graduate student were given hand on demonstration for impression making and pouring the cast followed by Mouth guard fabrication. This workshop will orient student for making accurate impression and provide immediate mouth guard and facilitate students to acquire skills for reducing oral injuries as mouth guards act to retain any fractured or loosened teeth thus preventing their loss, inhalation or ingestion or in patient with grinding habit.

The course was conducted a 2 modules which for 2 consecutive days to train the post graduates student.

Module 1 - lingual Laboratory preparation

Day 1:- Presentation 1. :-Basic Biomechanical principles in lingual orthodontics.

Contents of presentation:-

- STB light lingual system
- Lingual mushroom arch form v/s Lingual straight wire arch form
- Kesling set up:- Segmentation of teeth, alignment of teeth and occlusion, how to check kesling setup for 1st, 2nd and 3rd order requisites.
- Fabrication of mushroom template and indirect bonding.
- Steps to check the bracket positioning on the kesling setup in 3 planes of space.
- Fabrication of transfer trays for indirect bonding.

Day 1 :- Hands on workshop :-

- Scoring / drawing reference lines on the models and teeth for kesling setup.
- sectioning of teeth and preparation of models for kesling setup.
- Refining of kesling set up in all three planes of space (Arch form, Symmetry, 1st order, 2nd order, 3rd order)

Day 2 :- Presentation 2:-Clinical implications during lingual laboratory work.

- Preparation of mushroom template for indirect bracket positioning.
- Preparation of secondary working model.
- Bonding of Lingual appliance on to the Secondary working model.
- Preparation of transfer tray for Indirect bonding.

Module 2 - Lingual indirect bonding & leveling and aligning

Day 1 :- Presentation 3. :-Bonding in lingual orthodontics.

- How to choose the right mechanics for a given lingual patient.
- fabrication of initial arch wires for leveling and aligning.

Day 2 :- Presentation 4 :-Stages in lingual Mechanotherapy.-

- wire sequencing in different stages of lingual mechanotherapy.
- fabrication of mushroom arch wire in 0.017 X 0.025 rectangular arch wires

Objectives achieved: The sessions and hands on enabled students to gain confidence to start lingual cases in department hence adding another technique for their patient work

LASERS IN PERIODONTOLOGY-2017

TITLE	LASERS IN PERIODONTOLOGY
SPEAKERS	Dr. Smriti Bhargava
DATE	20-21 SEPTEMBER 2017
TIME	9 AM TO 5PM.
PARTICIPANTS	82
ORGANIZING SECRETARY /ORGANISING CO-ORDINATOR	Dr. Pragya Tripathi 9354044845 dr.pragya.trip@gmail.com

DESCRIPTION

Department of Periodontology conducted a course in Lasers in Periodontology in association with Inderprastha Dental College and Hospital from 20-21st September 2017. Dr. Smriti Bhargava, the Clinical Product head and Laser specialist at Unicorn Denmart Pvt. Ltd. gave an insight on Lasers in Periodontology enhancing the various aspects of Laser applications in Periodontology. It was clearly understood by all that detail knowledge of laser functioning enables the dental professional to use laser technology expressly for the benefit of the patient and within a safe environment. Dr. Vikram Blaggana, Head of Department, Department of Periodontology organised the programme with the help of all the co-ordinators from the department. It was attended by interns and postgraduate students. Demonstration was given on Goat head and students have practiced using lasers on the same.

A total of 82 students comprising of Interns and Post graduates of various Departments have attended the programme.

Pratya Tripathi

Organizing Secretary

OBJECTIVE

Conventional mechanical treatment has various limitations in techniques and effects, and lasers have been introduced as an adjunctive or alternative tool for various Periodontal procedures. In this programme, we have potentially covered the topic to enrich our attendees with the best of knowledge on the application of Lasers in Periodontology.

Organizing Secretary
